KHANEH NOOR
LIGHTING INDUSTRIES

About Khaneh Noor

Khaneh Noor began its operations in 2009 (1388), driven by a passion for knowledge, innovation, and a commitment to excellence in Iran's lighting industry.

Today, the company has evolved into a well-structured organization with a complete value chain — from product design and manufacturing to quality control, sales and after-sales services — meeting the ever-growing needs of our customers.

Over the years, Khaneh Noor has gained valuable experience and technical expertise, enabling the development of a comprehensive product portfolio, including linear lighting systems, profiles and diffusers, recessed luminaires, surface and pendant lights, outdoor lighting, projectors, and various decorative and architectural lighting fixtures.

Our core approach is built on quality, durability, and modern design. By combining contemporary aesthetics with premium materials and advanced manufacturing processes, we offer lighting products that enhance spaces, improve visual comfort, and create inspiring environments for our customers.

Khaneh Noor always focuses on **innovation**, design capability, and the execution of lighting projects for both indoor and outdoor applications. We provide tailored lighting solutions based on the specific needs of each project — from initial design and technical consultation to product supply and final implementation — working closely with our clients at every stage.

With a clear vision for sustainable growth in domestic and international markets, **Khaneh Noor** continues to develop high-quality, reliable, and competitive lighting products, aiming to contribute to the advancement of Iran's lighting industry and create greater value for our customers and society.

Vision, Mission, and Development Goals of Khaneh Noor

Vision

Khaneh Noor envisions becoming a leading and transformative brand within a distinguished international group, recognized as a pioneer and reliable partner in Iran's lighting industry. Through continuous innovation, high-quality product design and manufacturing, and a strong commitment to customer satisfaction, we aim to establish Khaneh Noor as a respected and influential name in the global lighting market.

Mission & Core Philosophy

Our mission is to design and manufacture modern lighting fixtures with superior quality for residential, commercial, administrative, and diverse spaces. We are committed to delivering sustainable development through innovation, product excellence, visual comfort, and functional design—creating lighting solutions that enhance environments and enrich people's daily lives.

Development Goals

One of the key goals of Khaneh Noor is to expand its presence in international markets, with a focus on the CIS region, the Persian Gulf countries, and other global markets. To achieve this, we continuously invest in expanding production capacity, improving export infrastructure, and diversifying our product portfolio, aligning with customer needs and market demands both domestically and internationally.

Our Position in the Lighting Industry

Khaneh Noor is recognized as a reliable and reputable brand in Iran's lighting industry, with the ability to drive positive change. Thanks to ongoing development and customer trust, we are well-positioned to expand our market share domestically and internationally, support the national economy, and create job opportunities for future generations of this land.
